

So clean you could eat off them.

(But that would defeat the purpose)

Technical Air Products manufactures a complete line of furniture designed specifically for use in clean environments. Whether you are looking for benches or racks to outfit your gowning room, or you are looking for work tables or carts for your cleanroom, Technical Air Products has a solution for you. We offer high-end stainless steel furniture for the most critical environments, and we offer powder coated furniture for those less stringent requirements.

Take advantage of our standard products for the best price and lead time, or have one of our engineers design a custom piece of furniture to fit your application.

Cleanroom Furniture Products

Nearly 20 years ago, Technical Air Products purchased NTA Industries, a manufacturer of quality stainless steel cleanroom furniture. The NTA product line consists of over 1,000 products to meet almost any cleanroom application. Our cleanroom furniture products include, but are not limited to:

TABLES

- Work Tables
- Computer Tables
- Ergonomic Adjustable Height Tables

CABINETS

- Chemical
- Security
- Utility

MISCELLANEOUS

- Benches
- Lean Rails
- Mobile Step Units

RACKS/SHELVES

- Garment Racks
- Reticle Racks
- Dispense Racks
- Bootie Racks

CARTS

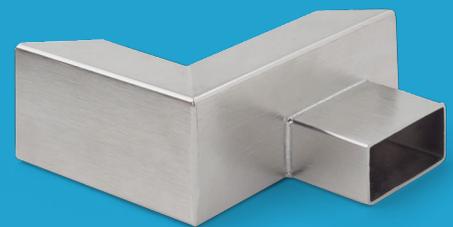

- Chemical Carts
- Wafer Transfer Carts
- FOSB Carts

OUR CLEANROOM FURNITURE DIFFERENCE

Great care is taken during the design and fabrication process of our cleanroom furniture to leave no space for contaminants to gather, so whether you operate an ISO 8, or an ISO 4 cleanroom, our furniture will meet your needs.
